El Dorado Springs, MO 64744

Customer ID: **33997**  
Certificate: **43-A-4785**  
Site: 001  
JASON L WEAVER

Type: ROUTINE INSPECTION  
Date: 04-AUG-2014

---

### 3.9(b)

#### FEEDING.

##### Section 3.9 Feeding

\*\*\*\* There are twelve feeders that have an excessive build up of grime inside the trough and has jagged edges. The jagged edges can injure the dogs while eating. The excessive build up prevents proper cleaning and sanitization of feeders along with contaminating feed. All feeders must be cleaned and sanitized to protect the feed from mold, deterioration and caking. The jagged edges must be removed to protect the dogs from injuring themselves.  
To be corrected by 08-10-2014

Exit interview conducted with facility representative.
