Type: ROUTINE INSPECTION
Date: 15-MAR-2016

2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

2.40 (a)(1) There was no written Program of Veterinary Care (PVC) available at the time of inspection. In order to ensure problems of animal health are addressed adequately, there needs to be a written PVC. The written PVC shall include the species being utilized or sold in regulated activities, preventative care, common health problems they may have and how these will be addressed by the licensee and the Attending Veterinarian.

Ensure that the formal arrangement with the Attending Veterinarian includes a detailed written Program of Veterinary Care.

To be corrected by: March 29, 2016

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

2.75 (b)(1) Four hedgehogs named "Petals", "Suzie Quills", "Pickles" and "Ariel" did not have the address of the person from whom the animals were acquire, USDA license number or the vehicle license number with the state, and the driver's license number. There was disposition record available which fully and correctly disclosed the required information for one adult female hedgehog named "Simone" who was no longer at the facility. Maintaining current records of animals on hand, including those acquired and disposed of, is required in order to be able to accurately track the animals.

Make, keep, and maintain records which fully and correctly disclose the required information regarding the acquisition and disposition of all the animals.

Inspection Report

3.125(c)

FACILITIES, GENERAL.

3.125 (c) An open bag of dry cat food being fed to the hedgehogs is sitting on the floor inside the animal housing area in the basement. There is potential for vermin to contaminate the food, rapid deterioration or molding which could cause disease or illness to the animals.

Ensure that all food and bedding are stored in facilities which adequately protect such supplies against deterioration, molding, or contamination by vermin.

To be corrected by: March 17, 2016

3.131(c)

SANITATION.

3.131 (c) Inside open area of the basement where 24 hedgehogs are being housed is an excess accumulation of equipment (i.e. filing cabinet, plastic containers w/items inside, books, boxes, water bottles etc.) being stored next or near the enclosures. Cobwebs were hanging from the ceiling above two of the hedgehog enclosures. These conditions are unsanitary and not appropriate in animal housing area as they can attract pests which can potentially carry infectious diseases and impedes proper housekeeping inside the basement area and around the animal's enclosure.

Premises shall be kept clean and in good repair in order to protect the animals and to facilitate the prescribed husbandry practices set forth in this subpart.

To be corrected by: March 24, 2016

Inspection accompanied with the owner, AC Student Trainee, and ACI Cindy Rhodes. An exit briefing was conducted with the licensee.
