### 2.78(a)

#### Health certification and identification.

On or about 19 August 2023, 2 langurs were transported in commerce without a health certificate and 50 squirrel monkeys were transported in commerce with an incorrectly completed health certificate showing wrong state of destination. Health certificates ensure that the animals have been evaluated by a veterinarian and they are free of any infectious disease or physical abnormality which would endanger the animals or other animals or endanger public health. Health certificates for nonhuman primates must be obtained prior to being transported in commerce. Correct going forward from 2 July 2024.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by 2 Sept. 2024 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
