Date: 06-MAY-2015

---

### 2.131(c)(1)

#### HANDLING OF ANIMALS.

During public exhibition animals must be handled so there is minimal risk of harm to the animals and the public. At the time of this inspection the pigs had an enclosure that was easily accessed by children and adults with no attendants present. Unrestricted/unsupervised access to the animals could result in harm to the animals or the public. The pigs need to have an enclosure that does not easily allow the public to enter the enclosure and allows the pigs to escape from the public if they desire or an attendant needs to be available to supervise public/animal interaction at all times public have access to the animals.

To be corrected by Oct 1, 2015
