Type: ROUTINE INSPECTION  
Date: 09-JUL-2014

### 3.127(d)

#### FACILITIES, OUTDOOR.

The primary enclosure housing kangaroos in the front of the facility as well as a second enclosure housing kangaroos toward the rear of the facility are not completely enclosed by perimeter fences. Both enclosures have areas where the animals can be secured by a perimeter fence, however, they have 24 hour access to large exercise yards. The exercise yards are not adequately enclosed by perimeter fences. The front enclosure lacks a perimeter fence on three sides and the rear enclosure is not surrounded by a perimeter fence on at least one side.

All outdoor housing facilities must be enclosed by a perimeter fence that is of sufficient height (6 feet) to keep unwanted animals and people out. The fence is also required to prevent unauthorized persons from having contact with the animals and to function as a secondary containment system. The required perimeter fencing must surround outdoor housing facilities or approval obtained from the Administrator.

Correct by: August 12, 2014.

The inspection and exit interview were conducted with the licensee.
