RECORDS: OPERATORS OF AUCTION SALES AND BROKERS.

The licensee uses a "Live Animal Intake Form" at each store whenever they purchase animals from the general public. The form allows collection of all information required by the Animal Welfare Regulations for brokers of animals. However, there were at least 13 forms that had incomplete information regarding the sellers of the animals. Properly completed records are necessary to facilitate record-keeping requirements for acquisition, disposition, and healthcare of the animals. The licensee must keep records that contain the name and full address of the seller. If the seller does not have a USDA license, the licensee must keep records of the seller's vehicle license number and State, and the seller's driver's license number and State. The record must also contain the date of the purchase and a description of the animal.

TO BE CORRECTED BY AUGUST 7, 2015.

The exit briefing was conducted with the licensee via telephone on July 31, 2015.
