

Inspection Report

Bonnie Springs Zoo
16395 Bonnie Springs Road
Blue Diamond, NV 89004

Customer ID: **325447**
Certificate: **88-C-0196**
Site: 001
BONNIE SPRINGS ZOO

Type: ROUTINE INSPECTION
Date: 01-JUL-2015

3.131(c)

SANITATION.

Food Preparation/Kitchen area: This area is kept untidy with a general accumulation of clutter, dirt and debris on the floor especially in corners, between storage boxes and under storage shelves and the sink. Also, a small area directly next to the kitchen which contains a hot water heater and mopping supplies had a heavy, accumulated layer of dirt covering the floor. Premises including buildings and surrounding grounds must be kept clean, free of clutter and in good repair in order to protect the health and well-being of the animals, and to facilitate the prescribed husbandry practices. A system of maintaining timely and effective housekeeping practices must be in place.

Correct by 07/09/2015

3.131(d)

SANITATION.

A large number of flies were present inside the building used for food preparation and cold food storage. Although two pieces of fly tape were hung in this building, the pest control program for this area is ineffective. Pests such as flies may pose a health risk to the animals and may contaminate food products. An effective pest control program must be established and maintained to promote the health and well-being of the animals and reduce contamination by pests in all animal areas and premises.

Correct by 07/09/2015

Exit interview was conducted with facility representative.
