### **ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).**

Sec. 2.40 Attending veterinarian and adequate veterinary care (dealers and exhibitors)

There are two pigs that have over grown hooves that need trimming. Some of the toes are too long and curving outward and inward. The inspector observed no abnormal gaits or lameness at the time of the inspection. It is important to trim hooves regularly to prevent discomfort and lameness. The facility needs hooves trimmed on a regular schedule in order to manage the length/growth of hooves.

An exit briefing was conducted with Operations Manager.
