

Inspection Report

Sea World of Florida
7007 Sea World Drive
Orlando, FL 32821

Customer ID: **3108**
Certificate: **58-C-0077**
Site: 002
SEA WORLD OF FLORIDA

Type: ROUTINE INSPECTION
Date: 10-SEP-2024

3.101(a)(1)

Facilities, general.

During inspection there were a couple areas that were found in need of repair.

*Sections of the wall at the water level in F pool in Dolphin Stadium, housing 4 bottle-nosed dolphins, has paint that is actively chipping. This chipped paint can enter the water and impact the water quality or become an ingestion hazard to the dolphins.

**There is cracked and broken concrete on the sand bar between seahorse and sand dollar pools at Discovery Cove. At the time of inspection there were 8 dolphins in the 2 pools. This concrete was able to be removed by hand by APHIS officials. Broken concrete can enter the water and impact the water quality or become an ingestion hazard to the dolphins.

Facilities where animals are housed must be maintained in good repair to protect the animals from injury.

Correct by October 1, 2024

This inspection and exit interview were conducted with facility representatives.

Additional Inspectors:

Danisha Bullock, VETERINARY MEDICAL OFFICER

Charles Palmer, VETERINARY MEDICAL OFFICER

Maira Roberts, VETERINARY MEDICAL OFFICER
