Facilities, general.

The outdoor housing shelter (an old mink building) for a primary enclosure housing 50 goats, 27 sheep, 2 mini Zebu cattle, 3 alpaca, and 1 llama is in need of repairs. There are multiple nails protruding out from the insides of the building approximately 3-4 feet off the ground which could contact the animals. There are some sharp wires protruding down from the low ceiling that could also contact the taller animals, such as alpacas and llamas. There are also multiple areas of sheet metal on the inside walls that are peeling up with sharp edges. This includes one area about 20ft long by 3 feet high with multiple peeling seams. Sharp points and edges that can be reached by the animals can cause injury and discomfort. Ensure that the indoor and outdoor housing facilities are structurally sound and maintained in good repair to protect the animals from injury.

***Correct by June 18, 2024.

This is a 1st Relicense Inspection for a Class "C" license. The inspection and exit briefing were conducted with the Applicant.

All items must be in compliance within 2 more inspections, or by July 19th, 2024 or the Applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Relicense Inspection.

Regulated activity can continue under your existing USDA license until it expires.
