2.40(b)(2) DIRECT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Dog with USDA tag #016, was noticed to have an excessive amount of brown to black crust adhered to the hair around both of her eyes. Upon further examination, the left eye had a milky white film covering the eye. In addition, the eye appeared to be cone shaped coming outward and not rounded like a normal eye. Having eye issues can cause the dog pain and discomfort if left untreated. Licensee must have this dog evaluated by a licensed veterinarian. Documentation of the examination, diagnosis and treatment must be maintained and made available for inspection.

2.40(b)(3)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Dog with USDA tag #016, Shih Tzu female, was noticed identified on today ' report to have eye issues. Any abnormalities with the dogs should be noticed and documented while performing daily observations. If the Licensee were to have noticed these abnormalities, he would have found that this dog had significant eye issues. Daily observation is required to address all health issues within the facility. Licensee must have daily observation of all animals and have frequent communication with the attending veterinarian to ensure that all observed health issues are treated within a timely manner.

Correct: immediately
