3.27(b)

Facilities, outdoor.

Two guinea pigs are currently housed outdoors. The facility has not obtained prior approval for such housing. Guinea pigs are very sensitive to both heat and cold. Their housing must be designed to protect the guinea pigs from both heat and cold extremes to avoid putting their health at risk and causing them discomfort. The facility must not house the guinea pigs outdoors unless such facilities are located in an appropriate climate and the facility has received approval from the Deputy Administrator. Correct by Jan. 21, 2022.

This inspection and exit interview were conducted with the licensee.
