

## Inspection Report

---

Wildlife Conservation Society  
2300 Southern Boulevard  
Bronx, NY 10460

Customer ID: **2100**  
Certificate: **21-C-0020**  
Site: 001  
Bronx Zoo

Type: RE-LICENSE INSPECTION  
Date: 03-JAN-2023

---

### 3.75(c)(1)(i)

#### Housing facilities, general.

The langur primary enclosure contained multiple rusty drains. Rust can prevent proper sanitization of surfaces and lead to build-up of excreta and food materials. The sifaka enclosure has flaking baseboards. All surfaces that come in contact with nonhuman primates should be free of excessive rust to maintain structural integrity of the surface. Surfaces should also be free of jagged edges to protect the animals from injury. Correct by 01/04/2023.

### 3.125(a)

#### Repeat

#### Facilities, general.

Several enclosures had various forms of disrepair. The red panda and snow leopard enclosures contained flaking paint. The kudu enclosure had metal mesh with sharp points. Damaged primary enclosures can present various hazards to the animals contained within them. All enclosures should be maintained in good repair to protect the animals from injury.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by 03/06/2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.
