Customer ID: 4099
Certificate: 48-C-0017
Site: 001
City of Clay Center

Type: ROUTINE INSPECTION
Date: 17-FEB-2016

2.40(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The 12 year old female Sika Deer was observed to be limping and reluctant put much weight on the front right leg when walking. She had a hunched posture and would adjust her weight off of the front right leg when not walking. The licensee was unable to provide documentation that this deer had been evaluated by a veterinarian or that any treatment plan was in place. Limping and a hunched posture can be signs of injury, pain, and or discomfort. This deer must be examined by a licensed veterinarian in order to ensure that an accurate diagnosis is obtained and an appropriate treatment plan is developed and followed. This information, including the diagnosis, treatment and resolution of the condition, must be documented and made available to the inspector upon request.
TO BE CORRECTED BY: close of business February 18, 2016

This Focused inspection addressed the 11 Feb. 2016 complaint. The inspection and exit interview were conducted with facility representatives, Mary Bartels, ACI and Kendall Lundy, ACI.
