

## Inspection Report

Marlieta Montz  
30434 Rolling Hills Drive  
Valley Center, CA 92082

Customer ID: **43727**  
Certificate: **93-C-0849**  
Site: 002  
MARLIETA MONTZ

Type: ROUTINE INSPECTION  
Date: 27-FEB-2014

### 2.75(b)(1)

#### RECORDS: DEALERS AND EXHIBITORS.

Records of acquisition and disposition were not available at time of inspection. Every exhibitor must keep and maintain records which contain the required information on animals purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by that exhibitor. The records shall include any offspring born of any animal while in his or her possession or under his or her control.

CORRECT BY: 5-30-14

### 3.53(c)(1)

#### PRIMARY ENCLOSURES.

One enclosure housing three rabbits failed to provide adequate space. Primary enclosures shall be constructed and maintained so as to provide sufficient space for the animal to make normal postural adjustments with adequate freedom of movement. This enclosure did not allow for adequate freedom of movement.

CORRECT BY 5-1-14.

### 3.56(a)(1)

#### SANITATION.

Rabbit enclosures had a buildup of excreta present, along edges and on resting boards. Primary enclosures shall be kept reasonably free of excreta, hair, cobwebs and other debris by periodic cleaning.

CORRECT BY: 5-1-14

### 3.125(a)

#### FACILITIES, GENERAL.

Goat / Sheep pen: shelter is in a state of disrepair, with large holes in walls and holes in wooden floor. Enclosures must be structurally sound and maintained in good repair, to protect animals from injury.

CORRECT BY: 5-1-14

## Inspection Report

---

3.127

### FACILITIES, OUTDOOR.

Goat / Sheep pen: the amount of shelter available is not sufficient for the number of animals in the pen. Natural or artificial shelter appropriate to the local climatic conditions for the species concerned shall be provided for all animals kept outdoors to afford them protection and to prevent discomfort to such animals.

CORRECT BY: 5-15-14

3.131(c)

### SANITATION.

Storage area directly adjacent to hay storage has an accumulation of clutter and trash. Chemicals are stored in this area in an unsecure manner, including toxics such as fly control products. Premises (buildings and grounds) shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart. Accumulations of trash shall be placed in designated areas and cleared as necessary to protect the health of the animals. The degree of clutter in the area also would prevent adequate pest control measures.

CORRECT BY 5-15-14

Exit interview conducted with facility personnel.
