SUMMER BRAY

Type: ROUTINE INSPECTION
Date: 15-SEP-2015

3.4(b)(3)

OUTDOOR HOUSING FACILITIES.

At time of inspection there were no wind / rain breaks at the entrance to three outdoor shelter structure housing nine dogs. Lack of adequate wind and rain breaks at the entrance provide the dogs with little to no protection from the wind, snow or rain. In addition, the dogs could experience difficulty conserving body heat and maintaining normal body temperatures. The licensee must ensure all outdoor shelter structures have adequate wind and rain breaks for the health and well-being of the dogs. To be corrected by 10-01-15.

3.6(a)(1)

PRIMARY ENCLOSURES.

At time of inspection there is an outside enclosures with six large dogs underneath a roof. The boards have broken and the sheet metal roof is sagging on the south end. The integrity and structural strength of the wood & metal roof is affected. The licensee must ensure all surfaces shall be structurally sound and maintained in good repair at all times. Boards must be replaced and metal roof attached. To be corrected by 09-25-15,

3.6(a)(2)(1)

PRIMARY ENCLOSURES.

At time of inspection a wire cattle panel was exposed next to the inside portion of the fence line. The cattle panel is being used to keep the dog from digging under the fence. The edges of the cattle panel could create a potential safety issue and could lead to injury. The licensee must ensure that all metal surfaces be maintained to have no sharp points or edges exposed for the health and well-being of the dogs. More gravel needs to be added to the enclosure to cover up the panel. To be corrected by 09-23-15.

At time of inspection two enclosures housing five large dogs had holes dug underneath the dog houses. The houses are elevated off the ground with blocks. The holes are so large that the blocks are leaning and could possibly fall causing injury to the dogs if lying underneath the house. The licensee must maintain the enclosure to provide safety to the dogs. Holes must be filled and blocks supporting the dog houses must be structurally sound. To be corrected by 09-19-15.
