### **Cleaning, sanitization, housekeeping, and pest control.**

Cleaning. There is again a buildup of dirt, grime and other debris on the perches and bars in the outdoor enclosures housing the ring-tailed lemurs, white-throated capuchin and the brown capuchin. Such accumulations on surfaces can increase disease hazards, odors, and soiling of the non-human primates. Perches and bars must be kept clean to protect the health of the non-human primates.

Perches, bars, and shelves must be kept clean and replaced when worn.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by September 6, 2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
