ANTHONY JANSSEN & BETTY LU JANSSEN

Type: ROUTINE INSPECTION

Date: 21-JUL-2014

3.11(b)(2)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Each indoor dog enclosure contains a food receptacle. The majority of these receptacles show signs of damage from being chewed on by the dogs. As a result, this allows dirt and food waste to penetrate into the surface which can result in disease hazards. The food receptacles need to be replaced or altered in a manner that allows for proper cleaning and sanitization every 2 weeks.

Affects no less than 10 dogs

Correct by 08/04/14

Exit interview conducted with facility representative
