3.77(f)

Sheltered housing facilities.

The perimeter fence measured only 5'8" tall. Animal Welfare Act requires a perimeter fence 6 feet high to protect the nonhuman primates by restricting unauthorized humans and animals from going through it or under it and having contact with the nonhuman primates.

3.81

Environment enhancement to promote psychological well-being.

The environmental enhancement plan for non-human primates was not complete and had not been approved by the attending veterinarian. The plan focused on the environmental enhancement, but did not address social groupings, special considerations, restraint devices and exemptions. Exhibitors must develop, document and follow an appropriate plan for environment enhancement appropriate to promote the psychological well-being of nonhuman primates in accordance with currently accepted professional standards and as directed by the attending veterinarian.
