2.31(c)(3)

Institutional Animal Care and Use Committee (IACUC).

For the semi-annual evaluation conducted in September of 2024, there are no signatures to document the approval of the report by a majority of the members of the Institutional Animal Care and Use Committee (IACUC). Semi-annual evaluations are critical to program oversight, and IACUC member signatures are important to ensure that members reviewed the semi-annual evaluation report and were in agreement with the findings, plan to address any deficiencies, and had the opportunity to submit any minority views. The registrant must ensure that reports are reviewed and signed by a majority of the IACUC members and must include any minority views, if applicable. In addition, the reports shall be updated at least once every six months upon completion of the required semiannual evaluations and shall be maintained by the research facility and made available to APHIS and to officials of funding Federal agencies for inspection and copying upon request.
