Certificate: **34-A-0182**
Site: 001
DANIEL HOCHSTETLER

Type: ROUTINE INSPECTION
Date: 23-NOV-2021

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There was expired injectable banamine (expired 10/2021) on hand.

Each dealer shall establish and maintain programs of adequate veterinary care that include the use of appropriate methods to control and treat diseases and injuries.

The licensee must ensure non-expired drugs are available to treat diseases and injuries to ensure appropriate method of action.

Corrected by close of business on Wednesday, 11/24/2021.

3.1(c)(1)

Housing facilities, general.

The floor in the indoor portion of the small dogs' kennel and the indoor and outdoor portions of the large dogs' kennel are no longer impervious to moisture.

The surfaces of housing facilities must be made of materials that allow them to be readily cleaned and sanitized.

Date:
23-NOV-2021

Inspection Report

The licensee must ensure the surfaces that contact the dogs are impervious to moisture to reduce disease hazards and prevent and eliminate odors.

Correct by close of business on Friday, July 1, 2022.

3.6(a)(1)

Primary enclosures.

The indoor portion of the primary enclosure housing a male miniature Australian shepherd (microchip number ending 857860) and the indoor portion of the primary enclosure housing a female golden retriever (microchip number ending 347902) each had a 3" by 5" area of the wall next to the dog door was chewed.

Primary enclosures must be designed and constructed of suitable materials so that they are structurally sound. The primary enclosures must be kept in good repair.

The licensee must ensure the primary enclosures are kept in good repair to prevent ingestion or veterinary medical issues.

Correct by close of business on Tuesday, 12/7/2021.

3.13(a)

Veterinary care for dogs.

The program of veterinary care does not have the frequency of testing and preventative treatment for heartworm or the frequency of preventative care and treatment for care of haircoats, nails, eyes, ears, skin, and teeth.

Date:
23-NOV-2021

Inspection Report

Each dealer must follow an appropriate program of veterinary care for dogs that is developed, documented in writing, and signed by the attending veterinarian.

The written program of veterinary care must address the requirements for adequate veterinary care for every dealer in § 2.40 of this subchapter.

The licensee must ensure the program of veterinary care includes the frequency of testing and preventative treatment of heartworm and the frequency of preventative care of haircoats, nails, eyes, ears, skin, and teeth to allow for adequate and appropriate veterinary care to the animals.

Correct by close of business on Friday, 12/3/2021.

This inspection and exit interview were conducted with the facility representative.
