### 3.154(b)

#### Environment enhancement to promote psychological well-being.

The environmental enrichment plan for birds is inadequate. The plan states that toys and swings, a variety of food, and bird baths will be provided. One cage containing a Pale-headed Rosella and a Blue Pennant Rosella contained a single perch with a chewed perch on the floor of the enclosure. No other enrichment was provided. It is imperative that birds be provided adequate environmental and social enrichment to ensure their psychological well-being and welfare. Correct by developing, documenting, and following a vet-approved bird enrichment plan by Oct 31, 2023.

This inspection and exit interview were conducted with the licensee at the Fort Smith Fairgrounds in Fort Smith, AR.
