

Inspection Report

ROBERT SAWMILLER
16761 COUNTY ROAD 25A
WAPAKONETA, OH 45895

Customer ID: **2942**
Certificate: **31-C-0221**
Site: 002
DAVID EICHER

Type: ROUTINE INSPECTION
Date: 15-APR-2021

3.129(a) Repeat

Feeding.

The licensee is feeding chicken leg quarters to the adult cougars. The licensee is not adding any dietary supplements to the chicken leg quarter diet.

The food for the cougars must be wholesome, palatable and of sufficient nutritive value to maintain the animals in good health.

Chicken leg quarters do not contain the correct balance of nutrients when fed alone. Meat alone lacks vitamins, and minerals to maintain healthy bones, bodies, and body function. A dietary supplement must be added to a diet made up of leg quarters to ensure the cougars nutrient levels are met.

3.131(d)

Sanitation.

There are numerous rat holes in and around the primary enclosures for the two cougars. When the inspectors inquired about the program to control the rats in and around the facility the licensee stated that he used cats to control the rat population.

Inspection Report

A safe and effective program for the control of mammalian pests shall be established and maintained.

A safe and effective program must be utilized and maintained to control mammalian pests. Rats carry numerous diseases that can affect the health of the cougars maintained at the facility.

To be corrected by April 5, 2021

This inspection and exit interview were conducted with the licensee.
