KRISTINA OLIVER

Type: ROUTINE INSPECTION
Date: 12-JAN-2017

3.127(a)

FACILITIES, OUTDOOR.

There is not sufficient shade provided for 4 camels housed together or for 2 additional camels housed in adjacent enclosures. The facility owner stated they are currently working on the plans to build sheltered areas for these animals. A shaded/ sheltered space should be provided for the health and comfort of the camels. A system should be in place to ensure animal enclosures have sufficient shade by natural or artificial means to protect animals when sunlight is likely to cause overheating or discomfort to them.

To be corrected by May 1, 2017

This inspection and exit interview were conducted with the Owner.
