### 3.125

#### Facilities, general.

The enclosure for the five bison was not being maintained in good repair. The side next to the water buffalo had multiple boards in place to patch the fence and there were other areas where the wire was loose and needed repaired.

Facilities must construct enclosures of materials and of strength that is appropriate for the animals involved and these enclosures must be kept in good repair.

To be corrected by June 30, 2022.

This inspection and exit interview were conducted with the facility owner.
