SPACE REQUIREMENTS.

This was a focused inspection involving traveling exhibition space.

On March 28, 2014 one animal (zebra) was on public display in a 5'x10' enclosed area.

The 5'x10' enclosed area did not allow the animal to make normal postural or social adjustments.

Providing inadequate space may lead to stress and/or abnormal behavioral patterns.

Animals that are not in actual transit are to be provided with and/or have access to an area that provides sufficient space.

Exit interview conducted with the facility representative.

CORRECTION: WITH FUTURE EXHIBITS
