

## Inspection Report

River Birch Animal Farm  
P O Box 159  
Locust Hill, VA 23092

Customer ID: **321531**  
Certificate: **52-C-0257**  
Site: 001  
RIVER BIRCH ANIMAL FARM

Type: ROUTINE INSPECTION  
Date: 02-JUN-2014

### 2.75(b)(1)

#### RECORDS: DEALERS AND EXHIBITORS.

There was no record of animals on hand or record of acquisitions and dispositions available for review at the time of inspection. In order to meet the regulatory requirement, these records must be maintained and updated on a regular basis, and made available to the inspector for review upon request. The records must be located and or recreated and be currently accurate by 30 June 2014.

### 3.125(a) REPEAT

#### FACILITIES, GENERAL.

\*\*\*Organic material and debris was being dumped to the rear of the large enclosure that backs up to the pond. This has created a hazard to the animals such as (but not limited to):

- Broken glass.
- Sharp protruding wire points.
- Areas of potential collapse.
- Holes in the ground.

Additionally, baling twine is not being removed from the animal area.

There is a potential for the animals to be injured in the dump area and by the baling twine strewn throughout the animal area. The animals need to be precluded from entering the dump area, moved to another area, or the areas they have access to need to be cleaned up. The non-dump area of the pasture needs to be cleared of baling twine and other potentially hazardous materials.

An exit interview was conducted with the manager on site and with the owner by phone.
