Certificate: **63-C-0260**  
Site: 001  
JEFF ALSUP

Type: ROUTINE INSPECTION  
Date: 13-APR-2016

### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The attending veterinarian visited the facility on 4/6/16 based on the veterinarian signing and dating the Attending Veterinarian Visit log. However, the facility has not yet obtained a completed formal written program of veterinary care from the part-time attending veterinarian. Formal arrangements of veterinary care to include a written program of veterinary care detailing the regular preventative and emergency veterinary care required for the animals is necessary to ensure adequate veterinary care. Arrangements with the veterinarian shall include a written program of veterinary care. Correct by April 30, 2016.

### 3.55

#### WATERING.

The water pan for the rabbits is dirty and requires cleaning and sanitizing. There was a layer of dark brown debris and dark green algae covering the bottom and sides of the water pan. Green and brown materials are floating on the surface and in the water. Drinking contaminated water can lead to disease and illness or may cause animals to stop drinking water leading to dehydration. Sufficient potable water shall be provided daily and all watering receptacles shall be sanitized when dirty and at least once every two weeks. Correct by April 14, 2016.

An exit briefing was conducted with undersigned facility representative.
