Lily Doodles L L C
208 Marion County 7032
Flippin, AR 72634

Customer ID: **332951**
Certificate: **87-A-0048**
Site: 001
LILY DOODLES L L C

Type: ROUTINE INSPECTION
Date: 05-JAN-2017

3.129(b)

FEEDING.

In the "mom & baby" room, one plastic tub enclosure had a large amount of fecal material smeared on enclosure wall above and around the food bowl. This and another enclosure had fecal material and bedding contamination of the feed within the food bowl. This situation can negatively impact the health and well-being of animals and increase the risk of disease and illness. All food bowls shall be kept cleaned and sanitized and replaced when soiled. The food bowls should be placed in enclosures in such a way as to minimize contamination to ensure a clean food supply at all times. Correct by 1/9/2017.

3.131(a)

SANITATION.

In the adult hedgehog room, three exercise wheels had heavy fecal contamination affecting 6 hedgehogs and another two wheels (4 hedgehogs) had milder fecal contamination. Fecal material was built up inside the wheel covering most of the running surface and up the sides. Some large chunks of fecal material were stuck to outer edges of wheel. Fecal material build up on items in the enclosure can pose risks to the health of the animals and lead to pest problems. Excreta shall be removed from primary enclosures as often as necessary to prevent contamination of the animals and to minimize disease hazards and to reduce odors. All enclosures and items within need to be cleaned appropriately and/or replaced to prevent fecal material buildup. Correct by 1/9/2017.

This inspection and exit interview were conducted with facility representative.
