Certificate: **57-T-0001**
Site: BWI
DELTA AIRLINES INC

Type: ROUTINE INSPECTION
Date: 18-SEP-2023

3.14(c)(3)

Consignments to carriers and intermediate handlers.

One Chinese Crested mix (dog) arrived at BWI on September 18, 2023 shipped from Honolulu, Hawaii, (Air Waybill #006-77588840) on September 17, 2023.

The shipper's certification, attached to the top of the enclosure, was not completed indicating that the dog was offered food and water 4 hours prior to delivery and there were no specific food and water instructions completed for a 24 hour period.

At the time of accepting a dog for shipment, the carrier must ensure that the consignor provides certification of the last time food and water was offered and specific feeding and watering instructions for a 24-hour period. This information is necessary to ensure that the animals receive food at least once every 24 hours, potable water at least once every 12 hours, and both as often as necessary for the dog's good health. The certification and feeding instructions should be clearly displayed on the carrier during transit. The airline must ensure that the consignor has provided this information in writing to ensure that animals are adequately cared for while in transit.

3.17(c)

Food and water requirements.

One Chinese Crested-mix (dog) arrived at BWI on September 18, 2023 from LAX (Air Waybill #006-77588840). The food and water receptacle was detached from the inside door of the primary enclosure and was noted lying on the floor in the rear of the enclosure.

Food and water receptacles must be securely attached inside the primary enclosure so that the containers can be filled from outside of the primary enclosure. Failure to secure the food and water receptacles to the inside door does not allow the airline employees to offer food and water while being transported.

Food and water receptacles must be securely attached inside the primary enclosure and placed so that the receptacles can be filled from outside the enclosure without opening the door to prevent escape.

This inspection and exit briefing were conducted with the airline representative.
