KAREN & GREGG WOODY

Type: ROUTINE INSPECTION  
Date: 08-MAR-2023

---

### 2.40(a)(1)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

There was no program of veterinary care available during the inspection. There have been previous requests for records during past inspections on March 2, 2022 and September 22, 2022 which resulted in no records being available. The licensee was emailed on February 6, 2023 advising them to make sure that all records or copies of them were located at the site 001 so that during inspections they could be looked at by inspectors.

The program of veterinary care is necessary to acquire proper treatment and protocols according to the attending veterinarians directions for the regulated animals.

Each dealer and exhibitor shall employ an attending veterinarian under formal arrangements. In the case of a part-time attending veterinarian or consultant arrangements, the formal arrangements shall include a written program of veterinary care and regularly scheduled visits to the premises of the dealer or exhibitor.

To be corrected by: March 26, 2023

### 2.75(b)(1)

#### Records: Dealers and exhibitors.

09-MAR-2023

## Inspection Report

---

There was no inventory, acquisition, disposition, transportation or brokering records available during the inspection. The licensee advised that they thought the records were with their spouse in another state and they did not have anything for inspectors to see. A request was made for the licensee to contact the spouse to determine if they had the records or if they could advise where they were at, and the licensee advised the spouse was in meetings and not available so they did not call to check. There have been previous requests for records during past inspections on March 2, 2022 and September 22, 2022 which resulted in no records being available. The licensee was emailed on February 6, 2023 advising them to make sure that all records or copies of them were located at the site 001 so that during inspections they could be looked at by inspectors.

The lack of records during inspections does not allow for proper traceability of the regulated animals by inspectors. Complete records are needed for proper management of the regulated animals at a facility and those being brokered, transported, acquired/held and sold.

Every dealer other than operators of auction sales and brokers to whom animals are consigned, and exhibitor shall make, keep, and maintain records or forms which fully and correctly disclose the following information concerning animals other than dogs and cats, purchased or otherwise acquired, owned, held, leased, or otherwise in his or her possession or under his or her control, or which is transported, sold, euthanized, or otherwise disposed of by that dealer or exhibitor. The records shall include any offspring born of any animal while in his or her possession or under his or her control.

To be corrected by: March 26 2023

### 2.134(a)

#### Contingency planning.

**Date:**  
09-MAR-2023

## Inspection Report

---

There was no contingency plan made available for inspectors to see during the inspection.

The licensee was emailed on February 6, 2023 advising them to make sure that all records or copies of them were located at the site 001 so that during inspections they could be looked at by inspectors.

A contingency plan is necessary to provide necessary holding/transport and contacts in the case of an emergency with the regulated animals at the facility in order to decrease the possible negative affects during an emergency situation.

Dealers, exhibitors, intermediate handlers, and carriers must develop, document, and follow an appropriate plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster (one which could reasonably be anticipated and expected to be detrimental to the good health and well-being of the animals in their possession).

To be corrected by March 26, 2023

This inspection and exit interview were conducted with licensee.
