DOUGLAS WILSON  
612 N Monroe Ave  
BROWNSVILLE, TN 38012

Customer ID: **508266**

Certificate:

Site: 001

DOUGLAS WILSON

Type: ROUTINE INSPECTION

Date: 18-SEP-2023

---

### 2.25(a)

#### Requirements and procedures.

The facility's registration expired 6/18/23. The facility representative stated that they attempted to update their registration online as they are transporting animals (dogs and cats) but when she called the Animal Care office to follow-up she learned that the online registration attempt was not successful. She stated she tried again. There is no record of the registration attempts or any correspondence related to it in the electronic registration/licensing system.

A current and active registration is necessary to transport regulated species in order to be in compliance with the Animal Welfare Act and Regulations.

The facility shall ensure that they are registered with USDA by completing and filing a properly executed form and that the registration is updated every 3 years by the completion and filing of a new registration form. A printed copy of the form was left with the facility representative. Correct prior to transporting any regulated species.

This inspection and exit interview were conducted with the facility representative.
