Site: 001

Xtreme Exotics Wildlife Foundation

Type: ROUTINE INSPECTION

Date: 23-JAN-2024

---

### 2.131(c)(1)

#### Handling of animals.

A member of the public posted photos on social media of a child interacting with a brown capuchin with their faces appearing to be touching on November 20, 2023. USDA officials showed the licensee these social media photos, and they confirmed that this was their animal.

Allowing nonhuman primates to come in close contact with guests faces increases the likelihood of injury to the animal and the public. It also risks the spread of zoonotic disease. During public exhibition, any animal must be handled so there is minimal risk of harm to the animal and to the public.

To be corrected by February 6, 2024

This inspection and exit interview were conducted with a facility representative.
