

## Inspection Report

Jerry Nelson  
Jo Ann Nelson  
22549 C Rd  
Soldier, KS 66540

Customer ID: 1390  
Certificate: 48-B-0070  
Site: 001  
JERRY & JO ANN NELSON

Type: ROUTINE INSPECTION  
Date: 03-AUG-2016

### 3.1(c)(1)

#### HOUSING FACILITIES, GENERAL.

- The metal lining in three egress doors in the second building inspected had a rough, deteriorated surface at the base.
- One plastic floor board in the second building inspected had rough and torn edges from being chewed. The chewed edges are deeply pitted and dirty.
- Three enclosures in the third building inspected had support bars along the base of the outdoor portions with peeling and deteriorated rubber/truck bed liner leaving a rough surface and exposed rough metal.
- Two enclosures in the fourth building inspected had support bars along the base of the outdoor portions with a deteriorated painted metal surface leaving a rough, rusted surface.

Surfaces that are rough, rusted, and deteriorating are not able to be adequately cleaned and sanitized and may play a role in disease transmission. The licensee must ensure that surfaces of housing facilities--including houses, dens, and other furniture-type fixtures and objects within the facility--must be constructed in a manner and made of materials that allow them to be readily cleaned and sanitized, or removed or replaced when worn or soiled. The plastic floor board was corrected during the inspection. The rest to be corrected by 3 September 2016.

The inspection and exit interview were conducted with facility representatives, Kendall Lundy, ACI and Margaret A. Shaver, VMO in attendance.

#### Additional Inspectors

Lundy Kendall, Animal Care Inspector

Prepared By: MARGARET SHAVER, D V M USDA, APHIS, Animal Care
