

## Inspection Report

Lion Country Safari, Inc. - FL  
2003 Lion Country Safari Road  
Loxahatchee, FL 33470

Customer ID: **3049**

Certificate: **58-C-0938**

Site: 001

LION COUNTRY SAFARI INC-  
FLORIDA

Type: ROUTINE INSPECTION

Date: 08-FEB-2024

### 2.40(b)(2)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

At the time of inspection, an expired medication for the facility's spider monkey was comingled with non-expired medications ready for use. The veterinarian stated that the spider monkey was currently receiving the medication and didn't realize it was expired. Expired medical products may lose their effectiveness and may not assist the animal in recovery from illness and injury or could leave the animal without proper protection against serious and deadly diseases. Each exhibitor shall use appropriate methods to prevent, control, diagnose, and prevent diseases and injuries. Expired medication should be properly disposed of. The licensee must ensure that all medical products being maintained for use at the facility are current and have not expired in order to support the health and well-being of the animals. Corrected at the time of inspection.

### 3.125(a)

#### Facilities, general.

-The Giraffes' "day" feeders have several exposed nails and deteriorating wood sections. Sharp points, particularly those in areas that animals frequently contact, increase the risk of animal injury.

-In the indoor lion housing enclosure, there are several rusted, sharp, and rough metal edges along the wooden platforms. Excessive amounts of rust affect the structural strength. Sharp points can pose injury risks to the animals.

-The hoof stock barn has several areas of deteriorating and damaged wood sections. The deteriorated wood sections pose a potential hazard to the animals housed within.

Facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury. The licensee must ensure structural elements shall be sound and in good repair, free from hazardous conditions such as sharp edges, nails, splinters, or loose, rusty, or deteriorated materials. Correction Date: March 4, 2024

This inspection and exit interview were conducted with facility representatives.
