1904 JENKINS MILL RD  
SUFFOLK, VA 23437

Customer ID: **501549**

Certificate: **52-C-0289**

Site: 001

THE TEENY TINY FARM LLC

Type: ROUTINE INSPECTION

Date: 26-APR-2023

---

### 2.75(b)(1)

#### Records: Dealers and exhibitors.

The facility's records of acquisition and disposition of animals are incomplete and do not contain all required information. Current records do not contain the name, full address and USDA license number (or drivers license number if not USDA licensed) of the individual or facility from whom they were acquired. Acquisition and disposition records are also missing a date of purchase or disposal, including for births and deaths at the facility.

Complete and accurate record keeping by the facility is necessary to trace animal movement in the event of a disease outbreak and also provides accountability and accurate identification of regulated animals during inspection. Correct by ensuring that records are accurate and complete in accordance with section 2.75(b)(1) of the Animal Welfare Act and regulations. Correct by May 5, 2023.

### 2.134(a)

#### Contingency planning.

The facility has not developed a complete written plan to provide humane care for handling animals in the event of an emergency or disaster.

## Inspection Report

---

Correct by developing and maintaining a written plan to provide guidance for the appropriate care of the animals during emergencies that could reasonably be anticipated. The plan shall address specific tasks required to be carried out in response to the identified emergencies, personnel responsible for the actions to be taken, chain of command, etc., as required in Section 2.134 of the Animal Welfare Act and regulations. Correct by May 19, 2023.

### 3.131(d)

#### Sanitation.

The facility is not achieving effective management of pests. The barn where the zebu calves are housed at night has a very large number of black flies. Fly strips were present however a multitude of flies were swarming in the barn and the current pest control measures are not sufficient at maintaining insect pests at an acceptable level.

Correct by establishing and maintaining a safe and effective program for the control of insects, ectoparasites, avian and mammalian pests. Correct by May 19, 2023.

This inspection and exit interview were conducted with the licensee.
