MUSEUM OF ARTS AND
SCIENCES

Type: RE-LICENSE INSPECTION

Date: 12-OCT-2023

2.40(b)(2) Critical

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

A male rabbit named "Smokey" became listless on Sunday, July 30, 2023 and the facility was not able to contact their attending veterinarian or find emergency care. The facility tried to contact veterinary clinics to no avail, but did not call the two emergency clinics listed on their Program of Veterinary Care. Therefore, veterinary care or consultation was not received and "Smokey" was found deceased the next morning. The failure to provide prompt care to this rabbit and to follow the pre-approved emergency plan, might have caused undue pain, distress or even resulted in the death of this animal. The licensee, must use appropriate methods to treat diseases and injuries and must therefore, in conjunction with the attending veterinarian, develop, as well as a follow, an appropriate plan for emergency care.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by DECEMBER 11, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
