3.1(c)(3)

HOUSING FACILITIES, GENERAL.

Two enclosures containing a total of 2 adult dogs and 5 puppies had dust webs hanging from the ceilings of the enclosures. Dust webs hanging from the ceilings of the enclosures doesn't ensure that the enclosures have been properly cleaned and sanitized. Unclean enclosures can contribute to the spread of disease throughout the kennel. All enclosures must be spot-cleaned on a daily basis and sanitized in accordance with section 3.11 (b) of the Animal Welfare Act. Correct immediately.

This inspection and exit interview were conducted with the licensee.

Note: The veterinary care issue identified during the last inspection on 7/18/16 has been corrected.

End of report.
