Site: 002

Rebecca Mosshart (PROTECTION)

Type: ROUTINE INSPECTION

Date: 29-SEP-2015

---

### 3.6(a)(2)(12)

#### PRIMARY ENCLOSURES.

There are three free-standing whelping enclosures constructed with plastic-coated wire floors where the plastic coating has worn off of at least 30% of the flooring. Bare wire flooring may be uncomfortable for the puppies and may cause foot problems. All suspended flooring must be either 1/8" in diameter or be coated with plastic or fiberglass. Correct by 29 October 2015.

This routine inspection and exit interview were conducted with a facility representative. Also in attendance was a KDA inspector.
