Site: 001

NATHAN S. KLINE INSTITUTE

Type: ROUTINE INSPECTION

Date: 15-AUG-2022

2.32(a)

Personnel qualifications.

On July 21, 2022 animal ID#R1-00009 had a procedure performed which included general anesthesia. This animal is assigned to IACUC approved protocol #680. The protocol referenced an SOP for this particular procedure, however the SOP did not contain guidance for anesthesia and therefore utilized the anesthetic guidelines described in the protocol. The protocol states that anesthetic monitoring would be performed every 15 minutes including core temperature and respiration. The surgical records reviewed during the inspection did not contain any temperature or respiration entries. Procedures conducted using animals must be performed in accordance with IACUC approved protocols and referenced SOP's. The facility must ensure that personnel are conducting procedures in accordance with IACUC approved protocols and SOP's. In addition, personnel must ensure that procedures are performed in a manner which is in alignment with protocol/SOP's. The facility is correcting this issue by implementing an enhanced training program .

This inspection and exit interview were conducted with the facility representatives.
