Type: ROUTINE INSPECTION  
Date: 20-FEB-2025

---

### 2.40(b)(2)

#### Attending veterinarian and adequate veterinary care (dealers and exhibitors).

At the time of inspection several bottles of medications, supplements as well as two open syringes were stored on the top of a dog enclosure. A bottle of Metronidazole was identified with an expiration date of Jan 2025 along with an Iron supplement with an expiration date of 4/20. Medication beyond its expiration date could lose the ability to be effective, and does not constitute the standard of care. In addition, medication and needles and syringes must be stored in a sanitary manner. The licensee must ensure that all medication is properly stored and any expired medication is removed from use in the kennel. The licensee corrected this issue by disposing of the expired medication and moving the medication and supplies at the time of inspection.

\*\*\*\*\*Corrected on 2/20/25

### 2.75(a)(1)

#### Records: Dealers and exhibitors.

Records for two litters born at the facility did not contain the required information. The date of birth for both litters have been recorded however, no additional information was documented. Records shall be maintained for litters born at the facility and must include the sex, breed type, a date of birth, and color. Records shall be maintained for each dog held at the facility and must include the information as required by this section of the AWA, including any offspring.

\*\*\*\*\*Correct by March 15, 2025

This inspection and exit interview were conducted with the licensee.
