Site: 001

PIMA COMMUNITY COLLEGE/EAST CAMPUS

Type: ROUTINE INSPECTION

Date: 20-JUL-2015

2.33(b)(2)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE.

***The facility is not always using appropriate and timely methods to control and treat infections. Review of records for a dog named "Whipley" showed the following: On 4/2/15, physical exam records indicate abnormal eyes, stating: discharge (White-green) OD . On 4/8/15, the doctor s SOAP form states a plan to monitor eye condition . On 4/12/15, physical exam records indicate abnormal eyes, stating: OU inflamed, erythema, conjunctivitis, yellow mucoid discharge . On 4/14/15, doctor s SOAP form prescribes treatment of the eye condition with dexamethasone ophthalmic drops.

There were no records indicating monitoring or treatment of the eye condition from 4/3-4/7/15 and 4/9/15 to 4/14/15. Although medical records on 4/12/15 indicated a conjunctivitis, which had progressed over time since 4/2/15, treatment was not started until 4/14/15. Injuries and diseases that are not treated properly and in a timely manner, may be painful and can lead to prolonged suffering, infection, and other veterinary care problems. The facility must use appropriate methods to prevent, control, diagnose, and treat diseases and injuries.
To be corrected by 7/24/15.

Inspection and exit briefing were conducted with facility's laboratory specialist.
