Environment enhancement to promote psychological well-being.

A documented, veterinary approved avian environmental enhancement plan was not in place, although many enrichment practices were evident at the time of inspection. The plan ensures that appropriate planning for social grouping, physical environmental enrichment and any special considerations for birds with special needs is in place. The facility must ensure the environmental enhancement plan is documented and approved by the veterinarian.

Correct by 29 December 2023.

This inspection and exit interview were conducted with facility representatives.
