Certificate: 42-A-0933
Site: 001
JUDY DOROTHY

Type: ROUTINE INSPECTION
Date: 25-OCT-2017

2.40(b)(2) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Male beagle ("Blue", microchip #900032002280516) has a buildup of tartar on the teeth. The majority of the surface of the upper left and right canine teeth have a heavy buildup of dark brown tartar. The upper and lower cheek teeth on the right side of the mouth have a thick buildup of dark brown/grey tartar covering their entire surface. Along the gum line of one of the upper right cheek teeth is a line of thick grey material. The gums are moderately reddened.

Poor dental health could cause pain and discomfort as well as lead to further health issues. The above mentioned dog must be evaluated by a licensed veterinarian for a proper diagnosis and to establish an effective treatment plan. The licensee must ensure that all dogs receive adequate veterinary care at all times.

The licensee made an appointment with a licensed veterinarian for the evaluation and treatment of this dog at the time of the inspection.

Female beagle ("Lemon Beagle", microchip #900032002940915) cited under 2.40 (b)(2) on the previous inspection report has been evaluated by a licensed veterinarian and received treatment.

Inspection and exit interview conducted with Kelly Maxwell, ACI and the facility representative.
