2.134(a)

Contingency planning.

At the time of the inspection, the licensee did not have a documented contingency plan for the facility.

If an emergency or natural disaster were to occur, the lack of a written contingency plan could impact animal health if the staff are not prepared to respond to the situation appropriately.

Intermediate handlers must develop, document, and follow an appropriate contingency plan to provide for the humane handling, treatment, transportation, housing, and care of their animals in the event of an emergency or disaster.
To be corrected by October 10, 2023.

This inspection and exit interview were conducted with a facility representative.
