### 3.78(d)

#### Outdoor housing facilities.

There were sections of the facility's perimeter fence in need of repair. A large tree had fallen on a section of the fence and reduced its height to less than 6ft. Other sections of the fence were difficult to assess due to the presence of plant overgrowth. The staff were addressing small holes at the bottom of the fence at the time of inspection, but needed to clear the vegetation in certain areas to continue addressing the deficiencies. Additionally, there was a section of the perimeter fence near the south end of the property that was less than 6ft in height.

Correct prior to scheduling the next relicense inspection.

This is a 1st Re-License Inspection for a Class C license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by April 23rd, 2023 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
