2.78(a)(1)

Health certification and identification.

On June 20, 2022, the facility delivered to an intermediate handler, and shipped 167 nonhuman primates twenty-one (21) days after a licensed veterinarian inspected the animals. The Animal Welfare Act (AWA) standards and regulations require a health/veterinary inspection certificate for nonhuman primates not be performed more than 10 days prior to the delivery of nonhuman primates for transportation in commerce. As mandated by the AWA, when delivering nonhuman primates for shipping to an intermediate handler, the facility must ensure the animals' health/veterinary inspection certificates are completed by a licensed veterinarian no more than 10 days from the shipment day.

Correct from this day forward.

This inspection and exit interview were conducted with four facility representatives.
