Type: RE-LICENSE INSPECTION
Date: 10-MAR-2025

2.75(a)(2)

Records: Dealers and exhibitors.

During inspection it was found that the licensee was not using the Record of Acquisition and Dogs and Cats on Hand (APHIS Form 7005) or the Record of Disposition of Dogs and Cats (APHIS Form 7006). An accurate animal inventory is required so that USDA inspectors can ensure all dogs are accounted for and receiving adequate veterinary care. Records of animal acquisition and disposition, including births and deaths, must be kept by the facility to ensure animals can be traced in case of an animal disease outbreak and to ensure there are not high mortality rates in the animals. An accurate inventory and records of animal acquisition and disposition using Forms 7005 and 7006, including births and death, must be maintained by the facility. If digital records are used a variance must be applied for and approved in writing by the Administrator.

To be corrected from this date forward March 14th, 2025

This is a 1st Re-License Inspection for a Class B license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by May 9th, 2025 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
