2.1(a)(1)

Requirements and application.

The facility is currently selling two Mountain Coati at the Exotic Animal Expo in Huntsville, AL without a valid USDA Animal Welfare Act license. At the time of inspection, the representative stated that the facility has a current USDA license, however, upon further review the facility is in the application process. A valid license is necessary to protect the health and well-being of the animals and to comply with the Animal Welfare Act and Regulations. No person shall operate as a dealer, exhibitor, or operator of an auction sale, without a valid license. The facility needs to obtain a USDA license if continuing to sell exotic/wild animal species. Correct by discontinuing covered activity until a USDA license has been obtained.

This inspection was conducted with a state official and a facility representative and the exit interview was conducted with the applicant.
