#### Institutional Animal Care and Use Committee (IACUC).

The IACUC did not review the program of humane care and use of animals at the intervals required by the Animal Welfare Act, which is every 6 months. Records indicate that the IACUC reviewed the program for humane care and use of animals on July 29, 2022 and then not again until April 17, 2023, which is a span of almost 9 months. One of the IACUC functions is to review at least once every 6 months, the research facility's program for humane care and use of animals. This is to ensure protocol changes, adverse events, personnel changes, and other issues are addressed in a timely manner. Correct by October 2023.

### 2.31(c)(2)

#### Institutional Animal Care and Use Committee (IACUC).

Records indicate that the IACUC failed to inspect the facility at least once every 6 months. The facility was inspected on July 29, 2022, and then not again until March 30, 2023, which is a span of 8 months. Regular reviews are necessary to ensure IACUC oversight of the facility and to ensure the welfare of the animals being used in research by the facility. With respect to activities involving animals, the IACUC shall inspect at least once every 6 months all of the research facility's animal facilities, including animal study areas. Correct by October 2023.

This inspection and exit interview were conducted with the attending veterinarians and administrative facility representatives.
